Hays, suggests the inquiry whether parents should withhold from their children so great a blessing. Can the student who en-ters college without it be as successful as the one who

can use it daily in the lecture room? Mr. J. W. Dollman: Nashville, Dec. 13th, 1860. Six:—The first lessons I took from you some time sluce in Phonography, have enabled me to save more than two-thirds of the labor in preparing my sermons, and I have no doubt it will soon enable me to save three-fourths of it. I have never spent time more profitably than in its attainment, and I feel me to save three fourths of it. I have never spent time more pro-fitably than in its attainment, and I feel perfectly free in recommending it to Clergymen generally, as a means by which a vast amount of time may be saved, and that too with far less effort than is generally sup-posed. Its principles are few and simple, of easy at-tainment and suited to the full expression of every word in the language, either for present use or perma-nent record.

Yours respectfully,

No. 781 BROADWAY, NEW YORK, Having secured their novel and ingenious invention by American and European patents, are fully prepared to execute all orders for "MINATURE LIKENENES OF PER ONS ON CHINA," presenting all the attractive and advantageous features of ordinary photographs, the brilliancy and finish of a water color drawing, and a hitherto unattained quality of durability, by being rendered as imperishable as the natural properties of the articles upon which they are transferred.

As the natented process of the Company enables the As the patented process of the Company enables the reproduction of Photographs, not only on plain surfaces, but upon such as are round or of any degree of irregularity—portraits can be reproduced with faultless accuracy, and delicacy of delineation, upon Percelain wares of any description and dimension used as articles of luxury or of household utility, such as

URNS, VASES, BREAKFAST CUPS, TOI-URNS, VASES, BREAKFAST CUPS, TOILET ARTICLES, &c.;
thereby securing faithful portraits and furnishing an unique and exquisite style of ornamentation of articles in domestic use.

In order to furnish facilities for the gratification of the popular taste, and to meet the wants of those patrons of the Fine Arts desirous of having Portraits on Porcelain, the Company have imported from Europe a collection of superior porcelain goods, manufactured to their own order, which they sell at cost prices.

As the American Company are owners of the patent right, and consequently the only persons authorized to use the process, they have determined, in order to afford People in every section of the Union an opportunity to possess Portraits on China, to make the following proposition to residents in the country, who are unable to visit personally the Atelier and Galleries in New York: Persons sending a photograph, ambrotype, or daguerreotype to the office of the Company in New York, accompanied by rive roulars, will receive in return by express, free of other charge, a richly ornamented Breakfast Cup and Saucer, with the portrait transferred thereon.

By transmitting a daguerreotype and tex pollars, they will secure in like manner, a bandsome French Vase or Toilet Article, with the portrait reproduced by the patented process.

By sending a pair of daguerreotypes and Priter pollars, they will receive in return a pair of rich Sevres Vases, with the portraits executed equal to minature paintings; and, in like immuner, portraits can be reproduced on porcelain wares or Vases of every quality of finish, ranging in price from Twenty to Oue Hundred defairs the pair.
